

REMARKS

By the present amendment, Applicant has canceled Claims 1, 16, 34, 45, 64, 90, 116, 137, 154, 180, 208, and 224, and added Claims 236-253. Claims 2-15, 17-33, 35-44, 46-63, 65-89, 91-115, 117-136, 138-153, 155-179, 181-207, 209-223, and 225-235 were canceled by the previous preliminary amendment. Claims 236-253 remain pending in the present application. Claims 236-249, 252, and 253 are independent claims.

No new matter is involved by the present amendment since basis for the the newly presented claims is found in the original disclosure. Support for the new claims is explained below.

Claim 236 substantially corresponds to claim1 and clarifies the “only single action” recitation. Support for this language is found in at least Figures 149-199 and on pages 102-117 of the specification.

Claim 237 substantially corresponds to claim 16 and clarifies the “state of readiness” recitation. Support for this language is found in at least Figures 149-199 and on pages 102-117 of the specification.

Claims 238 and 239 substantially correspond to claim 34 and clarify the method using the single action. Support for this language is found in at least Figures 149-199 and on pages 102-117 of the specification.

Claim 240 and 241 substantially correspond to claim 45 and clarify the traction means. Support for this language is found in at least Figures 89-119 and pages 65-84 of the specification.

Claims 242 and 243 substantially correspond to claim 64 and clarify the traction means. Support for this language is found in at least Figures 89-119 and pages 65-81 of the specification

Claim 244 substantially corresponds to claim 90 and clarify the self-driven track system and the track system during temperature cycling, respectively. Support for this language is found in at least Figures 120-148 and pages 85-102 of the specification.

Claim 245 substantially corresponds to claim 116 and clarifies the energy conversion system. Support for this language is found in at least Figures 120-148 and on pages 85-102 of the specification.

Claims 246 and 247 substantially correspond to claim 137 and clarify the shape memory material activator being variably deformed. Support for this language is found in at least Figures 33-37 and on pages 34-39 of the specification.

Claim 248 substantially corresponds to claim 154 and clarifies the shape memory material activator creating a path through the shell. Support for this language is found in at least Figures 26-30 and 79 and pages 28-33 and 60 of the specification.

Claims 249-251 substantially correspond to claim 180 and clarify creating a path through the shell by pressuring altering means. Support for this language is found in at least Figures 31-55 and on pages 30-46 of the specification.

Claim 252 substantially corresponds to claim 208 and clarifies the delivery of the substance for stimulating the senses. Support for this language is found on at least in Figures 1-199 and on pages 117-124 of the specification.

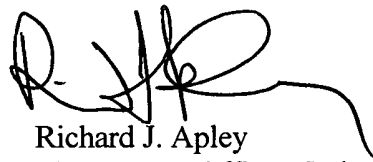

Claim 253 substantially corresponds to claim 224 and clarifies the system of delivery using a plurality of shape memory activated substance delivery devices. Support for this language is found in at least Figures 1-199 and on pages 117-124 of the specification.

Application No.: 10/549,705
Art Unit 2859

Attorney Docket No.: 27232.03
Confirmation No.: 7679

Entry of the present amendment prior to examination is respectfully requested. Applicant awaits a formal examination on the merits of the application.

Respectfully submitted,
